

Key benefit

Sunless tan, moisturizing.

Usage recommendations

Ingredients 100% of natural origin. No allergens. Suits all skin types, even the most sensitive and intolerant skins.

Application

Smooth evenly over cleansed skin. Avoid contact with clothes until product is dry. Long lasting effect, starting 2-3 hours after application.

Format

Tube 75ml

Ingredients and benefits

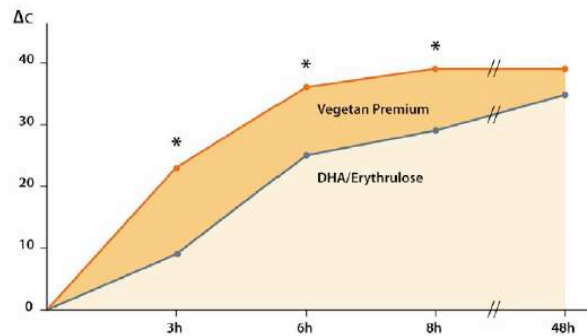

5% natural DHA or dihydroxyacetone
 INCI : DIHYDROXYACETONE

- 100% natural and approved by Ecocert
- DHA is a self-tanning agent that reacts with the amino acids present in the corneum layer (the superficial layer of the skin)
- the browning appears after a reaction time of at least two hours
- important : the "tan" obtained with this product does not protect the skin against sun rays

Protocole (test in vivo)

- Application par un panel (20 volontaires, phototypes I et II) sur les avant-bras de :
 - une crème formulée avec Vegetan Premium 5%
 - une crème formulée avec DHA 5% + Erythrulose 2.15%
- Mesure de la saturation de la coloration (chromamètre Minolta)
- Test de significativité (Student)

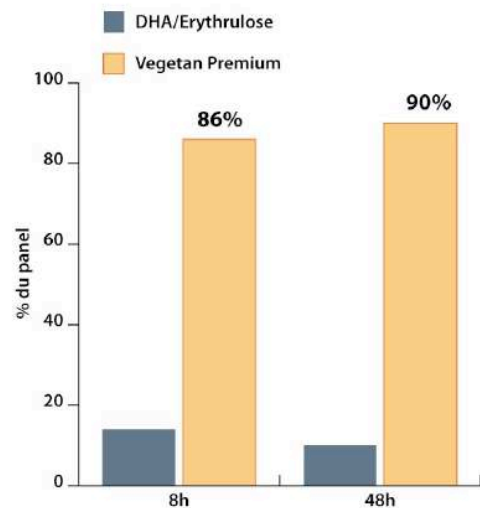

* Statistiquement significatif Vs DHA /Erythrulose

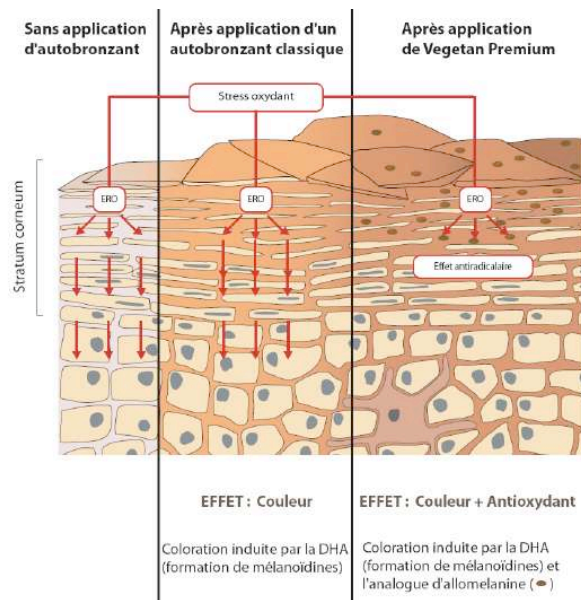

• Auto-évaluation du panel de la qualité de la coloration pour les deux produits

• Les 20 volontaires répondent à T8h et T48h à la question suivante : « Laquelle des zones colorées vous semble la plus naturelle ? »

Test mené en double aveugle

- Vegetan Premium protège l'ADN des dommages induits par le stress oxydant

► **Vegetan Premium est le 1er autobronzant actif**

Natural vitamin E (natural d-alpha-tocopherol)

INCI : TOCOPHEROL

- anti-oxidizing and moisturizing properties
- helps skin glow and tone of tissues
- plays an important role in the prevention of damages due to UVA and UVB radiation

Shea butter

INCI : BUTYROSPERMUM PARKII (SHEA BUTTER)

- has cell regenerative virtues and thus efficiently delays skin ageing
- softening, moisturizing and restructuring
- organically grown

Sunflower oil

INCI : HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL

- presents restructuring, regenerative and moisturizing properties
- excellent film-forming agent
- from organically cultivated sunflowers

Safflower oil

INCI : CARTHAMUS TINCTORIUS (SAFFLOWER) SEED OIL

- has moisturizing and restructuring properties
- this cold-pressed organic oil provides the skin with the intact natural virtues of safflower seed oil

Sapphire or sea fennel extract

INCI : CRITHMUM MARITIMUM EXTRACT

- obtained from *Crithmum maritimum*, which is an aromatic medicinal plant from the Umbelliferae family found in coastal areas where it grows between rocks and sand
- considered to be cell regenerating, moisturizing and bactericidal

Patchouli essential oil

INCI : POGOSTEMON CABLIN OIL

- aromacological fragrance with calming, astringent and antibacterial virtues

Swiss glacier water

INCI : AQUA (WATER)

- from the glacier of the Diablerets in the Swiss Pre-Alps
- first frozen many thousands of years ago, it is therefore intrinsically pure
